A very large percentage of the children in Mil-wankee do not attend school, and the Superinten-ment calls for authority to compel them.

It is reported that all of the many ladies who were candidates for the office of School Director at the Iowa elections last week were defeated. The largest class ever graduated by the University

of California numbered fifty-four and included eight ladies. The first lady was graduated in '74. A bill has been introduced in the Massachusetts Legislature reconstructing the Board of Trustees of the Agricultural College at Amherst and providing that the alumni shall have a share in the govern-

The school fund of Indiana amounts to \$9,065,254 73. Professor James H. Smart, who has just retired from the post of State Superintendent—which he has held for six years—reports that the schools of the State have made in the past six-teen years immense advances.

The Louisiana schools are now receiving interest upon the school fund to the amount of \$30,320; and are soon to have an apportionment of \$68,750. Schools are increasing in number and efficiency, and a stronger sentiment in favor of public education is evident throughout the State.

Superintendent Seaver, of Boston, says that the practice of reading trashy sensational novels is a much more grave and rapidly spreading evil than is generally supposed. The pupils of the public schools draw from the Public Library a literature that wastes their time and injures their mental tone. It is proposed that the trustees of the Library shall take some action toward remedying the evil.

A large meeting of citizens has lately been held in Detroit to take measures for securing a non-partisan school board composed of honest and intelligent persons. A committee of twenty-six-half Democrats and half Republicans—was appointed, with instruc-tions to select a good ticket. The committee in-cludes many well-known men, and all are of high character and standing. The people of other cities —Cincinnati, for instance—might well take a lesson from Detroit.

The recent vote at Cambridge University upon the further extension of its advantages to women brought into the Senate a large number of persons whom no whip, however pressing, could bring to Cambridge on any ordinary occasion. The houses of Parhament, the bar and the schools were well represented; there men were of literature and men of Science, loungers from the London clubs and men of business from Yorkshire. This remarkable Congregation, The Athenaum thinks, is surely a proof that the educational movement which began with the admission of girls to the local examinations in 1865 is no transient agitation.

The new statutes of Cambridge provide that in all but a very few cases, clergy and laity are at last to be placed on an equal footing in regard to the tenure of emoluments. The rule of celibacy has disappeared. The prize tenure of a fellowship in nearly all the The prize tenure of a fellowship in nearly all the colleges of the university is six years with a dividend of \$1.250. A Fellow who holds his fellowship after the expiration of the prize tenure, whether in virture of a second election or as the occupant of some qualifying office, becomes in general entitled, after a term of years(in some cases twenty, in others twenty-five), to retain his fellowship for life, or to receive a pension instead of it.

In Philadelphia a lady principal in one of the grammar schools is undergoing examination upon the charge of having vilified the religious faith of some of her pupils, And in the same city one of the male teachers in the High Behool is publicly accused by a clergyman of insidiously sowing the seeds of infidelity in the schools. The Boston Advertiser says with reason that it ought to be well understood by teachers that there is wide, undisputed ground upon which they may safely base their instructions to the young upon morals, and even upon religion, without treading at all upon ground where controversy must surely arise. Our public schools are not designed for the giving of instruction upon mooted theological points, nor for attacks upon views which a teacher may deem erroneous.

It has been formally determined that the Western Reserve College shall be removed to Cleveland, the trustees having accepted Mr. Amasa Stone's offer of \$500,000 and the subscription list by the citizens of Cleveland of \$119,400. A beautiful plot of forty-acres on Euclid-ave, has been selected as the site of the University. The Case School of Applied Science, which has an endowment of \$1,250,000, is to be a part of the institution; and this sum, with Mr. Stone's \$500,000 and the Western Reserve College endowment fund of \$200,000, will give the new University an aggregate of \$2,000,000. The college and the Case School, though really united, will be practically confucted as two schools, each having its own trustees and rules; both, however, will be under the control of a Board of Regents. They will use the same library, apparatus and lecture halls.

mour's Normal School bill a mischievous one. "It Claverack (N. Y.) College fits for college and 'to strip the boards of all rea power and to make these teachers dependent on the good-will of the superintendent. For it comes to just that. If the local boards can have nothing to say as to courses of study or teachers, what are they good for ! What, indeed, but simply to register the will of a superintendent? If the teachers depend on this officer exclusively for their appointments and for continuance in their places, they ments and for continuance in their places, they must shape their course to please this man and avoid the displeasure of that man; they must be more personal dependents, and of all conditions in which an educated person can be put, this is the most odious. The sentiment of the State is emphatically against Mr. Gilmour's till, and it would be wise in him to cease to press it. The people are jealous—and rightly so—of any attempt to put a power of autocratic rule into the hands of anybody.

MINES AND MINING.

WEDNESDAY, March 23-P. M. The mining share markets to-day were fairly active and a good amount of business was done. But generally the sellers outnumbered the buyers, so that with few exceptions prices are somewhat lower than yesterday. Hibernia continues to be, and apparently its manipulators intend that it shall continue to be, a special feature of the dealings. With such supreme control of one stock as is held of Hibernia there rests a certain power over the whole market. To-day with large dealings-so large that at times it looked as if there was not a broker or operator that knew of any other stock—the prices declined from 90 to 83 cents, ending at the lowest declined from 90 to 83 cents, ending at the lowest figure. Hortense was dull, but closed 1 cent lower at 66 cents. Chrysolite was quiet and steady at 63e, Big Pittsburg rose from 3.30 to 3.40, but closed at 3.30, and Little Pittsburg was 10 cents lower at 3.40. Little Chief was steady at 1.35, Chmax 2 cents higher at 66 cents. Amie steady at 50 cents and Leadville Consolidated 3 cents lower at 01 cents. Bull Domingo rose from 2.15 to 2.55. Silver Chil was weaker at 43e and Alta Montana off 10 cents at 2.05. Moose was in moderate demand at 1.60, and Hukill was 5 cents lower at 1.25. Cherokee was down 5 cents to 2.05, Rising Sun down 5 cents to 3.05, but Gold Stripe was 5 cents higher at 3.20. The market closed active and irregular.

IBY TELEGRAPH TO THE TRIBUSE.

18Y TELEGRAPH TO THE TRINGSR.)

SAN FRANCISCO, March 23.—Bullion receipts for the past week: Contention, \$23,950; Eareka Consolidated, \$35,730; Northern B. He, \$24,600; Badre, \$9,800; Grand Prizz, \$4,000; Mount Potess, \$9,740; Navajo, \$14,000; Star, \$2,800; Noonday, \$16,060; Standard, \$90,360.

Crown Point has been assessed 50 cents per share. The market is active and a shade lower.

The Crown Point Mining Company has levied an assessment of 50 cents per share.

Tucson, Arizona, March 23.—B. F. Bivens, super-

TUCSON, Arizona, March 23.—B. F. Bivens, super-intendent of the Gunsight mine. Meyers District, and W. J. Audenried and J. B. Fontaine, of Phila-delphia, arrived here yesterday. A forty-stamp mill will be creeted immediately. The Tombstone Mill and Mining Company shipped \$21.721 butlon on March 21.

\$21,721 builion on March 21. Bullion valued at \$85,570 87 was received in this city yesterday from the mines.

The superintendent of the Head Centre mine, Tombstone, Ariznoa, telegraphs that the strike in the Sulphuret mine is on the Head Centre crop yein, and that it adds \$500,000 to the value of Head Centre property. Drifts are being widened and stations opened preparatory to starting the mill on rich ore about the 5th of April. Ten stamps are being added to the mill.

A private dispatch received yesterday from San

about the 5th of April. Ten stamps are being added to the mill.

A private dispatch received yesterday from San Francisco says; "Letter from the superintendent of the Oriental and Miller groups of mines, in Gold Mountain District, Nevada, dated March 18, states that developments in the Ellis mine of the Oriental Company continue very favorable. Ore across the ledge at the bottom of the shaft prospects fully \$200 per ton. The Keystone, of the Miller Company, shows great improvement in the size of the ledge and in the quantity of ore. The ore extracted in sinking and orifiting will pay a large profit over expenses. With mill facilities, the superintendent believes that both mines can pay a dividend in thirty days."

The superintendent of the Spring Valler Hydraulic mine reports; that, the south shaft on tunnel line is down 48 feet, 30 feet being through the best prospecting gravel which he has seen in Cherokee during a residence of feet years. The gravel is lighting in color, free from large boulders, and not cemented.

cemented.

A report just received from the superintendent recendy sent out from this city to manage the flite mine, California, states that there is ore enough above the tunnel on the 800 level to pay monthly dividends for twenty years. The winze sunk from the 800 to the 900 level has struck the ore chimney, and the ore has been found to be of the same high grade as that which gave the flite mine its great fame, and which made for the owners over a million and a half collars of profit. The new owners propose to build an additional 40 stamp mill, which will give them a milling capacity of 80 stamps.

mill, which will give them a milling capacity of 80 stamps.

It is officially reported that the vein of silver-lead ore recently struck in the Lucerne mine has already widehed out to about 12 inches, and that 10 steing mined from it for sale to the melters.

Messra Clark & Bothwell have made a contract for a new 40-stamp mill which will be in running order by July 1, and will be leased by the Star-Grove Company. It will probably be one of the finest silver mills ever erected in the United States. Yesterday this firm purchased the 250-horse power engine recently on exhibition at the Permanent Exposition in Pinladelphia, and within forty eight hours this splendid piece of machinery will be on its way to the mine. On the completion of this mill it is believed that the Starr-Grove can easily earn a 25 cent dividend. It is the intention of the mayagers to put up still another mill—60 stamps—before next winter.

The foreman of the Hortense mine telegraphed yesterday: "Winze below No. 3 level shows 16 inches of ore, and the body is still widening. Sixty pounds of average mineral assays, 191 ounces silver and 1 ounce gold. No.1 level has 4 inches of mineral, 60 pounds of which assays 112 ounces silver and some gold."

A telegram of resterday from the Silver Cliffmine

states that the water pipes for the mill had not yet arrived, but were hourly expected, and that everything was in readiness for them. There is a large supply of ore now in the bins.

The Dunn's Mountain mine, near Salisbury, N. C., has four quartz veins, two of which are now being worked. There is a large amount of ore on the dumps, and the company is putting un a 20-spamp mill and a Blake crusher, which will treat about 45 tons of ore every twenty-four hours.

A report received yesterday from the superintendent of the Empire mine. Utah, says: "Worthington and Knowler's pumps running splendidly; have in twelve hours lowered the water 7 feet. Pumps running only at half speed to start with, and we could run them twice as fast with safety. We will begin pulting in the crane nump to-day, to hold the water, while we lower the Knowles pump."

The Dutch Creck Mining Company, a new organization, has bought a rich property ten miles southeast of Salisbury, N. C., and is now buying machinery in New-York.

A CTIVE MINING STOCKS bought and sold. Special facilities for furnishing mining investments and late advices from the mines. Correspondence invited. WATSON & GIBSON, Bankers and Brokers, 60 Wall-st.

CLOSING PRICES OF PHILADELPHIA STOUXS.

City s. new 128 129 North'n Pac. pref. 672 68 Length Valley 600, 17 Wall-st. Wall-st

The stock market to-day was relieved of the

monotomy that has characterized the dealings for more than a week. But the relief came in a form that was unsatisfactory to the many and brought profit to only a very few. At the opening there occurred a little flurry, and prices for some stocks were marked up 1@112 per cent rather rapidly. The fictitious character of the movement, however, was very soon shown by the succeeding absolute absence of orders, and the dulness became almost oppressive. It was of short duration. Orders to sell began to be sent to the Board Room and prices began to yield. Although third in number of shares dealt in-and those \$25 shares—that fancy, Nashville, Chattanoogi and St. Louis stock is worthy of the first mention; because instead of rising to 108@110, as every one

WEDNESDAY, March 23-P. M.

Company, and with steadily decreasing which it is reporting, there is little probability its proving to be of any value, except to the leaville and Nashville Company, for years to ville and Nashville Company, for years to day, the price has been advanced to about par, and there is always to have been a sufficient flock of limits to purchase the stock with faith in floures is described. to purchase the stock with faith in figures in the 10s or 12s above par, so that a sudden tumble of the control or 30 per cent appears never to have hurt them who were credited with being the large buyers the highest price.

the highest price.

The other special features of the day were Day

Lackawanna and Western,

Dalaware, Leeks ware, Lackawanna and Western, Mew-Jersey Central. Of Delaware, Lackawanna and Western there were bought and sold 157,650 shares. After opening at 122 the price rose to 1231s. The following decline to 122 was slow and resisted; to 121 the decline was easier, but it was made only after ma fluctuations; to under 120 the fall was quick after 121 was passed, but even then there was a rally from 1193 to 1203, followed by a fall to the lowest and closing price of the day—1184. New-Jersey. Central, after opening at 101 and rising to 102, went through as many fluctuations as did Desaware, Lackawanna and Western, but ended at 9612@965. To a decline in the general market a stubborn resistance was made all day, but it was ineffectual in proventing the last figures from being about the lowest of the day. And there was not a "bear" raid made, Prices yielded to sales of long stocks, because the situation, independently of any action of the Government relative to an extra session of Congress or refunding the debt, is not regarded as warranting the present range of values. The market closed

In Government bonds the principal dealings were in the 4s, there being sales of \$131,000 of them out of total transactions amounting to \$152,000. Prices were steady, but the final bids for the 4s show a decline of 's per cent, Annexed are the closing quo-

tations:

Bid. Ask'd.

U.S. 6s. 1881, reg. 102 \(\frac{1}{2} \) 102 \(\frac{1}{2} \) 102 \(\frac{1}{2} \) 103 \(\frac{1}{2} \) 1 State bonds were more than usually active, par-

ticularly for Tennessee issues, which also were strong at higher figures, 63, old, selling 62½@6278, new at 62½@63¼, and new series at 625@63—all against 6012 yesterday. Louisiana consols were 14 higher at 59%. Georgia 63 sold at 111, and Missouri 6s, 1887, at 11012. There were no transactions in city bank stocks.

Railroad bonds were much neglected, the share market commanding so large a proportion of the attention of operators. There was some activity in Boston, Hartford and Erie firsts between 614 and 6014, the lower figure being the final one, against 6058 yesterday. Erie second consols fluctuated be tween 9912 and 99, and closed at 9914. New-Jersey Central incomes declined to 99, and Chesapeake and Ohio currency interest to 5212. Canada Southeras firsts yielded to 9958, St. Louis and Iron Mountain first incomes were 38 higher at 9278, but the second incomes were 138 lower at 8412. Tolods, Delphos and Burlington incomes further declined to 4784. Metropolitan Elevated firsts were weaker, and sold at 10518@10434. Ohlo Central firsts were steady at 10418, but the incomes declined 2 per cent to 60, International and Great Northern seconds were strong at 95, Denver and Rio Grande firsts yields

strong at 95, Denver and Rio Grande firsts yields 10 116, and Kansas Pacific consols were 14 lower at 105/2/105/2 and Texas and Pacific incomes declined from 83 to 82/2.

The Sub-Treasury to-day gained \$487,057 on balance, made up by gains of \$404.254 coin and \$82,803 currency. This makes the total gain since Priday \$1.438,303. The supply of loanable funds at the Stock Exchange to-day was less liberal, and the ruleing rates for call loans were 5/26 per cent. The domestic exchanges on New-York at the places named are quoted as follows: Savannab. 16/24 premium; Charleston. 18/24 premium; New-Orleans, 50 cents to \$1 premium; St. Louis, par; Boston, 20 cents discount. The United States Treasurer at Washington to-day received \$131,000 National bank notes for redemption. The customs receipts were \$744,801, and the internal revenue receipts were \$733,090. The Clearing House statement to-day is as follows: Exchanges, \$117,489,455; balances, \$4,210,440. The transactions at the Sub-Treasury covered: Receipts, \$925,593; payments, \$438,539; currency balance, \$3,355,615; coin balance, \$89,171,169.

There is no change in the markets for foreign exchange. Business is at a standstill and so dull that the numbral rates can be called neither strong not weak. The following are the posted quotations:

Prime bankers' sterling on \$480, 2480, \$482,2483.

In London, British cousols were strong and higher at 1003-2 for money and 1004 for account. United States 5 per cents were 's lower at the Just the 44-3 were '4 higher at 115, and the 45-3 wither at 11042. American rathways and 11042. American rathways and 11042. American rathways are strong and the strong of the strong of

was told it would, it declined from 100, after many fluctuations and rallies, to 76. Later it rallied to 88 but ended at 83. We have no coniment to make upon the movement. The property is entirely within the control of the Louisville and Nashville
